OUR TRANSPORTATION VISION:

Current MPO Vision Statement:

"The future transportation system in the Dover/Kent County Metropolitan region is safe, supports economic development, allows easy access and mobility for people and goods to reach their destinations, and serves desired growth patterns. The transportation system serves the public's needs, simultaneously reinforcing the unique character and quality of life of each community while preserving the region and its natural resources."

Proposed Modification to MPO Vision Statement:

"The future transportation system in the Dover/Kent County Metropolitan region is safe, resilient, and sustainable, supports economic development, allows easy access and mobility for all people and goods to reach their destinations, and serves desired growth patterns in a manner that is fair and just to all people and respectful of community character and our natural environment. ~~The transportation system serves the public's needs, simultaneously reinforcing the unique character and quality of life of each community while preserving the region and its natural resources.~~

MAIN THEMES FOR MTP:

- **THEME 1: Enhanced Mobility – Network Continuity**
 - **GOAL 1:** *To foster the evolution of a seamless Transportation System for all modes of travel that is safe, efficient, continuous, and fluid that effectively accommodates local, regional, and interstate transportation.*
- **THEME 2: Inter-Jurisdictional Coordination & Concurrency**
 - **GOAL 2:** *To synthesize State, Regional and Local Transportation Objectives into a unified Vision and Implementation Plan for Central Delaware.*
- **THEME 3: Economic Vitality**
 - **GOAL 3:** *To support an active and growing Business Development Community by proactively planning for transportation investments that strengthen the economic vitality of the Central Delaware Region.*

MAIN THEMES FOR MTP:

- **THEME 4: Social Equity**

- **GOAL 4:** *To establish opportunity for public participation by all persons in the Transportation Planning Process and to ensure that resultant plans for Transportation Investments are implemented fairly, justly, and equitably in the best interests of all members of the community.*

- **THEME 5: Resiliency & Sustainability**

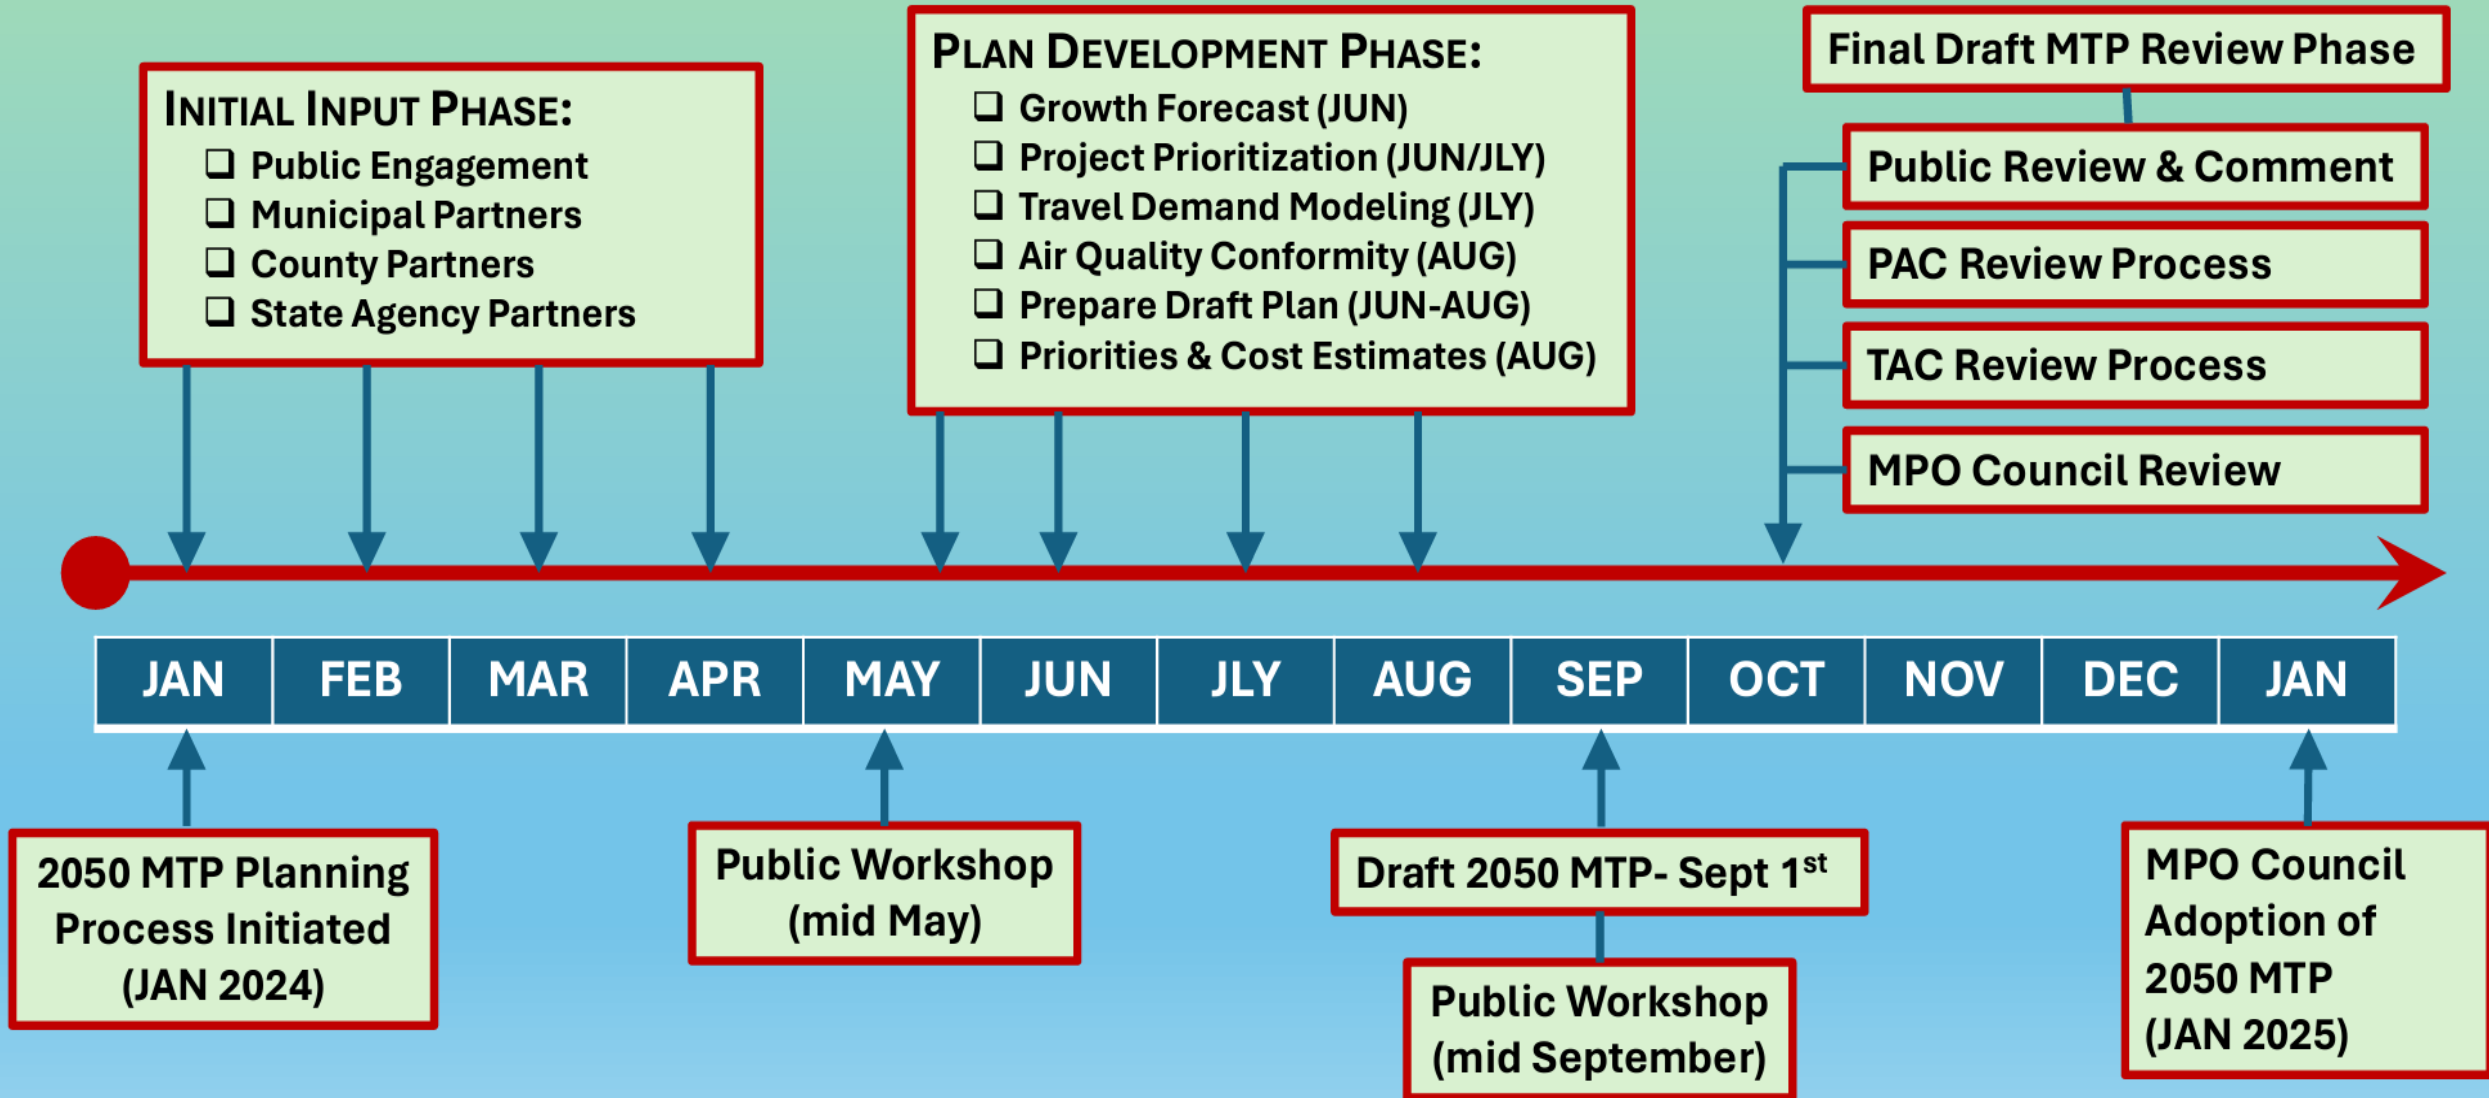

- **GOAL 5:** *To give preference to Transportation Investments that demonstrate minimized risk of failure, or avoidance of impacts, due to climate change and extreme weather events, that avoid or minimize disruption to natural communities and processes, and that reduce or eliminate the need for future Investments due to obsolescence, climatic damage, or other loss.*

- **THEME 6: User Experience**

- **GOAL 6:** *To incorporate Quality Level of Service features into Transportation Network Improvement Projects that yield a high level of user satisfaction and positive perceptions of user safety, security, and visual quality.*
